Company Reiterates 2022 Full-Year Net and Comparable Sales Guidance

KATY, Texas, Sept. 07, 2022 (GLOBE NEWSWIRE) -- Academy Sports and Outdoors, Inc. (Nasdaq: ASO) ("Academy" or the "Company") today announced its financial results for the second quarter ended July 30, 2022. Unless otherwise indicated, comparisons are to the same period in the prior fiscal year. Comparisons to 2019 are also provided, where appropriate, to benchmark performance given the impact of the pandemic in 2020 and 2021.

Second Quarter 2022 Results

"Our performance this quarter was in line with our expectations as Academy continues to substantially outperform our pre-pandemic levels of sales and profits. We remain confident that the durability of our strong assortments and everyday value model positions us well to deliver consistent sales and profitability growth going forward," stated Ken Hicks, Chairman, President and Chief Executive Officer. "This growth is supported by consistent operational excellence, healthy inventory levels, a strong balance sheet, new store expansion and omnichannel advancement. The Academy team remains focused on executing our priorities while delivering a great experience for our customers and creating value for our stakeholders."

Net sales were \$1.69 billion, a decrease of 5.8%, compared to \$1.79 billion. Comparable sales declined 6.0%. The decline in sales was primarily due to fewer transactions compared to last year partially offset by an increase in average ticket. When compared to the second quarter of 2019, net sales increased 36.3%. Additionally, e-commerce sales grew 12.1% year-over-year and 244.5% compared to 2019.

Gross margin was \$596.1 million, or 35.3% of net sales, compared to gross margin of \$642.5 million, or 35.9% of net sales in the prior year quarter. The 60 basis point decline was driven primarily by an increase in e-commerce shipping and higher freight costs, which were partially offset by an increase in merchandise margins. When compared to 2019, the gross margin rate expanded by 420 basis points.

Selling, general and administrative ("SG&A") expenses were 20.1% of sales, a 160 basis point decrease, due to non-recurring stock compensation and payroll expenses associated with the accelerated share vesting, which occurred in the second quarter of 2021. Excluding this non-recurring expense of \$40.3 million, SG&A expenses increased 70 basis points compared to last year, primarily due to fixed cost deleverage.

In the second quarter, pre-tax income was \$247.0 million compared to \$240.9 million. When compared to the second quarter of 2019, pre-tax income increased by more than 400%.

GAAP net income decreased 0.9% to \$188.8 million compared to \$190.5 million. Diluted earnings per share increased 11.6% to \$2.22 compared to \$1.99 per share based on a share count of 84.9 million shares compared to 95.9 million in the prior year quarter.

Adjusted net income, which excludes the impact of certain non-cash and extraordinary items, was \$195.0 million. Adjusted diluted earnings per share were \$2.30 compared to \$2.34 per share.

Year-to-date 2022 Results

Year-to-date, net sales decreased 6.4% to \$3.15 billion, while comparable sales decreased 6.7%. Year-to-date sales grew 36.3% compared to 2019.

Gross margin was \$1.1 billion, or 35.4% of net sales, compared to gross margin of \$1.2 billion, or 35.8% of net sales. When compared to year-to-date 2019, the gross margin rate expanded by 520 basis points.

Pre-tax income was \$442.3 million compared to \$465.8 million. When compared to year-to-date 2019 results, pre-tax income increased approximately 490%.

GAAP net income decreased 8.1% to \$338.6 million compared to \$368.3 million. Diluted earnings per share were \$3.90 compared to \$3.82 per share in the prior year to date.

Adjusted net income, which excludes the impact of certain non-cash and extraordinary items, decreased 14.5% to \$348.2 million. Adjusted diluted earnings per share were \$4.01 compared to \$4.22 per share in the prior year to date.

Balance Sheet and Capital Allocation Update

At the end of the second quarter, the Company's cash and cash equivalents totaled \$399.9 million with no borrowings under the \$1.0 billion credit facility. During the quarter, net cash provided by operating activities was \$161.3 million. Merchandise inventories were \$1.3 billion, an increase of 17.0% compared to the second quarter 2021 and 8.4% higher than the second quarter of 2019.

During the second quarter, Academy returned \$206.4 million in cash to stockholders through a combination of share repurchases and dividends. The Company repurchased 5.6 million shares for \$200.1 million. On July 14, 2022, the Company paid a quarterly cash dividend of \$0.075 per share, or \$6.3 million, to stockholders of record as of the close of business on June 16, 2022. As of July 30, 2022, the Company had approximately \$500 million remaining under its share repurchase program.

Subsequent to the end of the second quarter, on September 1, 2022, Academy announced that its Board of Directors ("Board") declared a quarterly cash dividend with respect to the quarter ended July 30, 2022, of \$0.075 per share of common stock. The dividend is payable on October 13, 2022, to stockholders of record as of the close of business on September 15, 2022.

New Store Openings

During the second quarter, Academy opened one new store, bringing the total number of stores opened as of July 30, 2022, to two, for a total of 261

stores. The Company expects to open a total of nine new stores this fiscal year and 80 to 100 stores over the next five years.

2022 Outlook

"Academy delivered record quarterly earnings per share results, which demonstrates our earnings potential as well as our ability to deliver strong results in a challenging environment," said Michael Mullican, Executive Vice President and Chief Financial Officer. "We also continued our capital allocation strategy of investing in growth and increasing shareholder value by investing in new stores, repurchasing a significant amount of shares and returning cash to shareholders through our dividend program. Based on our results to date and current trends, including the sequential improvement in comparable sales, we are reiterating our full year sales and comp guidance while updating our earnings per share forecast to reflect the reduction in our share count."

Academy is reiterating its net and comparable sales guidance for fiscal 2022 and updating its EPS forecast. The revised guidance is as follows:

Adjusted EBITDA and Adjusted EBIT

We define "Adjusted EBITDA" as net income (loss) before interest expense, net, income tax expense and depreciation, amortization, and impairment, further adjusted to exclude costs such as consulting fees, private equity sponsor monitoring fees, equity compensation expense, (gain) loss on early retirement of debt, net, severance and executive transition costs, costs related to the COVID-19 pandemic, pre-opening expenses, payroll taxes associated with a vesting event, as a result of a secondary offering, of certain time and performance-based equity awards, which occurred in May 2021 (the "2021 Vesting Event") and other adjustments. We define "Adjusted EBIT" as net income (loss) before interest expense, net, and income tax
